MANAGEMENT DISCUSSION AND ANALYSIS

OPERATION REVIEW

The Company and its subsidiaries (collectively referred to as the “Group”) reported a total revenue of approximately HK\$124.9 million for the six months ended 31 December 2018 (the “Six-month Period”), compared with approximately HK\$264.1 million for the corresponding period in 2017. For the Six-month Period, a loss attributable to owners of the Company of approximately HK\$96.8 million was recorded whilst in the corresponding period of last year, a loss attributable to owners of the Company of approximately HK\$15.8 million was recorded.

Such loss during the Six-month Period was mainly due to reasons as stated in the followings:

Firstly, there is a drastic slowdown in the cultural and entertainment industry in the PRC in the second half year in 2018. This was due to an unexpected change in government policies in the PRC. The artiste management segment of the Company was significantly dropped during the Six-month Period;

Secondly, the slowdown of retail and consumer markets in Hong Kong and the PRC has been notable due to worsening political ties within the US and PRC. And the retail industry further slowed down due to downside asset prices in general in Hong Kong, which affects consumer sentiments in Hong Kong.

Last but not the least, there are no major titles of movies which were distributed in Hong Kong and the PRC during the Six-month Period.

During the Six-month Period, artist management’s segment contributed a revenue of approximately HK\$23.5 million (2017: HK\$95.8 million). The revenue from the business segment of distribution and production of films, television programmes and music production was approximately HK\$11.1 million (2017: HK\$29.5 million). The revenue from cinema operation segment was approximately HK\$20.4 million (2017: HK\$18.4 million). The revenue from the money lending business was approximately HK\$19.2 million (2017: HK\$13.7 million). The revenue from the HMV business was approximately HK\$50.7 million (2017: HK\$106.7 million).

2018-2019 Interim Report
HMV Digital China Group Limited

BUSINESS REVIEW

The Group is an integrated cultural and entertainment contents and services provider in Hong Kong, the PRC and East Asia. It produces and distributes movies through cinemas, over-the-top platforms across the regions. It is also one of the major artiste management services providers in Hong Kong.

Since the entire cultural and entertainment industry in the PRC slowed down in mid of 2018, the Group has been formulating varieties of organisational restructuring, including but not limited to, (a) cost saving initiative; (b) introduction of new business models; (c) strategic review on possible restructuring of the Group's business segments to achieve cost saving and improve profitability, as well as the financial performance of the Group.

Furthermore, the Group is streamlining the business segments and disposing its loss-making operations to reduce the cash outflow on the business. And the Group is also looking for opportunities to dispose some assets if the prices are fair and satisfactory.

In the rest of 2019, the financial and investment markets are expected to be volatile, including but not limited to US-China political ties and worldwide geopolitical risks. And certain risks in the cultural and entertainment industry remain to be acute and severe. This brings high uncertainty to the artiste management segment, distribution and production of films, television programmes and music production business segments of the Company.

It is expected that the Group will focus on its core strength in movie distribution and production and other promising business segments. And it may further trim down loss-making business segments in order to preserve core values of the Group.

The Group will take cautious and conservative approaches in managing its business segments with the aim to reduce market risks and achieve a better return to the Group and shareholders.

9. INTANGIBLE ASSETS (Continued)

Notes:

- (a) Trademarks arose from the acquisition of HMV Business on 3 August 2016. Trademarks represent the rights to use the name "HMV", the various HMV trademarks and trade mark applications, and the HMV domain names for the purposes of conducting the retail business of "HMV" operating through retail stores selling music, movies and television series related contents and products located in Hong Kong and any other business to be conducted in the PRC, Hong Kong and Singapore. The average remaining amortisation period of the patents and trademarks has indefinite useful life.

The recoverable amounts of the trademarks are determined on the basis of fair value less costs of disposal using discounted cash flow method (level 3 fair value measurements). The key assumptions for the discounted cash flow method are those regarding the discount rates, growth rates and budgeted gross margin and revenue during the period. The Group estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates are based on long-term average economic growth rate of the geographical area in which the businesses of the CGUs operate. Budgeted gross margin and revenue are based on past practices and expectations on market development. The discount rate used was 16%.

- (b) The Group's club membership of approximately HK\$2,930,000 (30 June 2018: HK\$2,930,000) at 31 December 2018 is assessed as having indefinite useful life because there is no time limit that the Group can enjoy the services provided by that club.

The recoverable amounts of the club membership is determined on the basis of fair value less costs of disposal by reference to market price as at 31 December 2018 and 30 June 2018 (level 3 fair value measurements).
